

INTERFLUX[®] STENCIL CLEAN WIPES

Description

Solvent For Cleaning Metallic Stencils during Printing Operations in Wipe Form.

Application

Interflux[®] STENCIL CLEAN wipes have specifically been developed to quickly and cleanly remove solder paste, inks, flux and other stencil print materials. Available in pre-saturated lint free wipe form.

Features and advantages

- Versatile powerful cleaner for use on metals, PCBs, and electronic assemblies
- Swift drying leaving no residue
- Environment-friendly with low odour and no ozone depleting substances
- Lint free wipes

Chemical Composition

Interflux[®] STENCIL CLEAN is a solvent blend which produces a balance of evaporation rate and flash point appropriate to production conditions. These ultra-pure materials provide superior solvency, good wetting, and dispersing characteristics. .

Physical properties

Flash Point:	>61°C	Boiling Point:	175 - 236°C
Odour:	Hardly perceptible	Appearance:	Clear Liquid
Specific Gravity @15°C:	0,797	Solubility in water:	partial

Storage

Interflux[®] STENCIL CLEAN wipes should be stored in sealed containers of suitable materials. This product is neither corrosive nor ozone depleting. Though non-flammable at ambient temperature, it should not be stored or used near open flames or ignition sources. The Material Safety Data Sheets contain further safety information and should be consulted when using this product.

Packaging

Interflux[®] pre-saturated STENCIL CLEAN wipes are available in 100 pieces canisters.

Health and safety

Wear Nitrile gloves when using the wipes! Read the Material Safety Data Sheets before use!.
